

What is Citizen Corps?

Citizen Corps offers volunteer opportunities to support local fire, law enforcement, emergency medical services, community public health efforts, and to contribute to the four stages of emergency management: preparedness, prevention, response, and recovery. With the added support of citizen volunteers, emergency service providers have more time to fulfill their highly skilled responsibilities to make our communities safer, stronger and

better prepared.

The Texas Association of Regional Councils, a public entity, administers the Citizen Corps programs in Texas through councils of governments (COGs).
